IT CADRE MOVES TO ASHBURN

ASHBURN, VA, July 1, 2008 -- IT Cadre, an engineering firm that leverages a unique methodology to provide solutions to practices, companies, and government agencies -- particularly those in healthcare and telecommunications moved its headquarters to Ashburn, Virginia.

The facility is located in Ryan Park at 43480 Yukon Drive (Suite 205). It is dedicated to the company's engineering, development and applications' hosting. This center provides the needed systems to better manage their businesses and customer applications.

"We are very excited to be in Ashburn. Our new headquarters location puts us in close proximity to IT Cadre's healthcare, telecommunications, and government customers, as well as providing easy access to out-of-town customers," says Mark Madigan, IT Cadre President.

The company specializes in helping customers improve patient care, operations, increase sales, reduce costs and enhance customer satisfaction. IT Cadre prides itself on experience, discipline and integrity.

Since 2001 its staff has helped large and small organizations achieve their goals. IT Cadre expects to add staff in the fall of 2008 to accommodate recent contract wins and future growth.
